

Bio for Wen Chen

Wen was born in China at the end of the Great Cultural Revolution. Being the victim of this horrific atrocity that killed two million intellectuals and destroyed traditional Chinese culture, Wen's parents had mixed feelings about her education. Despite their discouragement, Wen eventually won a national prize at a science competition when she was 16. Hence, she went to a top university for undergraduate study and then came to the U.S. in 1994 for graduate school. Wen received a Ph.D. in Biology at the California Institute of Technology in 2000. Because of her personal experience of being brainwashed in China, she decided to voice for the voiceless. Since 2012, she has given hundreds of presentations to community organizations about Chinese culture, history, and society.

Wen has been working for Caltech since 2000 as a biologist and information scientist. Part of her everyday work is scientific outreach by speaking at conferences and seminars at universities. She is a board member for Caltech Women in Biology and Biological Engineering. She has a blog: <https://wenchenview.blogspot.com/>

Her topics include:

Human Rights & Society:

- 1. The Chinese Communist Party's Infiltration into the U.S.**
- 2. China's Global Impact**
- 3. Counteract Communism Infiltration**
- 4. North Korea and China**
- 5. Coronavirus and China's Censorship**
- 6. Human Rights of Women in China**
- 7. Human Rights Movement in China**

Art & Culture:

- 1. Chinese Medicine & Meditation**
- 2. Traditional Chinese Attire**
- 3. The Science of Tea Making**
- 4. The Renaissance of Chinese Culture**
- 5. Working Women in Ancient China**

Human Rights Movement in China

The Chinese authority arrested millions of citizens for their spiritual beliefs or political views. These prisoners of conscience have been tortured, forced to do slave labor, and killed for their organs. While it takes several years in the U.S. to wait for matching organs, most Chinese hospitals promise to find donors within weeks. The Chinese police, legal, and military systems collaborated to perform the state-sanctioned forced organ harvesting. The audience will hear evidence and international responses about forced organ harvesting in China, as well as the following: how the Chinese Communist Party penetrates U.S. society to influence decision-makers; the human rights movement in China since 2004; innovation that allows people to bypass China's Internet blockade; human rights lawyers in China; and the trend of quitting the Chinese Communist Party.

The Chinese Communist Party's Infiltration into the U.S.

The Chinese Communist Party (CCP) quickly gained financial power after China joined the World Trade Organization. During the past 20 years, the Chinese government built up business ties with Hollywood and over 30 mainstream media worldwide to tell a better story about China. Hundreds of universities, including the college board, outsourced Mandarin teaching to the Chinese government. The Chinese consulates actively manipulate Chinese Americans and business owners who may steal intellectual property or influence elections. The U.S. lawmakers cannot stop at "condemning human rights abuses in China." They must take serious actions to prevent American businesses from sponsoring the CCP. We also need serious measures to protect academic and press freedom.

North Korea and China

For over 60 years, China has been supporting its communist neighbors and keeping an ally to resist the society of freedom. China has been funding the Kim regime by contributing to 90% of North Korea's export income, providing material and technology for North Korea's nuclear power behind the scenes, and sending refugees back to North Korean concentration camps. At the same time, the Chinese regime uses North Korea as a bargaining chip with the U.S., claiming that China is the only one that can bring North Korea to the table. An in-depth analysis of the influence of the Chinese government in the world is essential for us to understand the current U.S.-China relationship.

Coronavirus and China's Censorship

The spread of coronavirus raised worldwide attention towards China's epidemics and public health policy. More and more evidence emerged that the Chinese authority deliberately hid the contagious fact of the coronavirus for three weeks by punishing medical doctors who disclosed the information on social media. The censorship of information eventually led to the epidemic outbreak in Wuhan, followed by the biggest quarantine in human history. The actual statistics of infection and death rates in China remain a mystery as the Chinese authority controls the published numbers. While denying the association between the virus and the Wuhan Institute of Virology, China introduced its first biosafety law on Feb. 17, 2020, then shifted the blame to the U.S. military. Understanding the profound reason behind the Communist Party's disaster response is crucial for us to expect its consequences and shape future U.S.-China policies.

Past Speaking Engagements & Interviews (2021 - 2024)

North Whidbey Island Republican Women, Washington (9/11/2024)
Thurston County Republican Women, Washington (9/10/2024)

Audience Feedback

You were most informative! I received many positive responses from our audience. We hope you continue to spread the message about Communist China and its infiltration.

Gloria Sanchez, Chaffey Community Republican Women, Federated, 1st VP/Programs, 5-25-2022

Your talk was all-encompassing on the subject topic and very well-organized. It was a true bugle call to alert our people to the serious threats posed in all arenas of our life to the infiltration of China's Red Menace. You obviously knew your subject and delivered it in a most convincing manner.

Hon. Allen B. Clark, Dallas, Texas, 4-8-2022

Wen was an awesome speaker. The audience held on her every word. She was extremely knowledgeable of China and what was going on. Several of our members, including myself, want to bring the lecture to high school and college kids.

Annette Eliot, President, Huntington Harbor Republican Women Federated, 1-25-2021

You are absolutely the bravest and most inspiring person I've ever "met". I pray for your safety always

Carolyn Wells, Speakers chairwoman, Conservative Order For Good Government, San Diego, California, 10-13-2020

Well, just like last time, I heard rave reviews! You never cease to amaze me with not only your knowledge but your ability to speak so eloquently and clearly on so many subjects. Your mind is a human computer! I always come away with a clear understanding of the topic and information you covered.

Drue Ellen Lawlor, Pasadena Rose Republican, 10-24-2017

You provided great information methodically organized. It was a real gift to us to hear your presentation on such a current and important topic. Your expertise is so appreciated especially since you came here from China and are educated in this specific area both scientifically and culturally.

Julia Brady, Vice President, Sierra Madre Rotary, 12-1-2020

Thank you SO MUCH for speaking to the Tahoe-Douglas Rotary Club! Your talk was simply outstanding. I had a number of people ping me afterward to say "Great speaker!" I am really impressed that you have stood up for what you believe though it could have had considerable personal consequences. And now we're better off due to you sharing your lesson.

Greg Felton, Program Chair, Tahoe-Douglas Rotary Club, 11-18-2020

Thank you for speaking to our San Juan Rotary Club. Your presentation has been a topic of conversation between many of

us for the past couple of weeks. Several members have expressed how much they appreciated learning about China through your experience. Thanks again for everything you are doing to help us understand the many different aspects of life in China.

Greg Sykes, San Juan Capistrano Rotary Program Chair, 9-14-2020

Very powerful talk, the old saying “you could have heard a pin drop” was surely in play with your audience.

Fred Merrill, Program Chair, Sons in Retirement Chapter 53, Oakmont, Santa Rosa, CA, 8-11-2020

Thank you! Thank you! Thank you! for speaking on the Rotary Zoom meeting. I only wish it had been recorded so that I could listen to it again. You validated so much for me and my thinking about what is happening in the World. Any opportunity to listen to you again would be welcomed.

Janet Coddling, twice past president of Santa Rosa West Rotary, 6-2-2020

Thank you for the informative message today concerning the lack of human rights in China. Your courage and the courage of those in China resisting the oppression of the CCP is reassuring and gives hope to all free people.

Douglas T. Floyd, Plano West Rotary Club, Dallas, Texas, 5-19-2020

I very much enjoyed your presentation on China's horrendous harvesting of human body parts and the executions of dissidents. Your facts and insights provided a much needed eye opening education of what's really going on behind the curtain. Hope you will continue your talks, you can change the narrative and minds.

Thank you for our special conversation, meant a lot to me. Wishing you much success in the future.

Tim Sprinkles, Camarillo Noon Rotary Club, 2-20-2019

Thank you for traveling to Nipomo to speak to our club. Your comments were enlightening and educational. I applaud your dedication to speaking out about the injustices in China. If you want to speak to a number of Rotary Clubs at once, I will forward your information to our District Governor. Our Rotary District, District 5240, is made up of 72 clubs. I would forward your information to our District Governor if you want to speak at one of our District meetings or Conferences.

Ed Harris, Community Service Chair, Rotary Club of Nipomo, 10-20-2018

I applaud you for your courage and your skilled approach to educate all of us of this hidden genocide that exists today in our time and global existence. Hopefully with your persistence along with all of the others discussing and sharing this genocide you can get this situation to go away. You briefly discussed the brainwashing you possessed when you came to California as a young adult student, and revealed how little we know and understand what is really going on in China with the communist regime. We must help and try to rid our world of atrocities and genocides as you have disclosed to us. Thank you for your wonderful efforts and commitments to help educate and hopefully stop this travesty from continuing ... And it was an honor to meet such an accomplished humanitarian and scientist in our own community.

Steve Gregory, Paso Robles Rotary Club, 1-12-2018
